technical details

FOSCARINI

Sinuuous, soft and familiar, the Blob S lamp furnishes with a strong luminous appeal and an irregular profile that recalls a natural shape. Exploiting the expressive qualities of plastic materials, the white moulded polyethylene diffuser envelops the light source entirely and emits a diffused and intense light. Available as a wall lamp and a ceiling lamp, it can be used alone or in multiple compositions to achieve charming lighting scenes.

KARIM RASHID

Among the most successful and original designers of his generation, with a preference for new technologies, he has obtained multiple acknowledgements, including the Red Dot Award,

the Chicago Athenaeum Good Design Award, the Pentawards and the IDSA Industrial Design Excellence Award, and his work is included in the permanent collections of a number of museums. For Foscarini, he has coined Blob, a luminous, organic shape with an original personality.
